CHAMBER ANNOUNCES MUSICAL TREATS

Recent correspondence between the Crawford County Chamber of Commerce and the Adjutant General of the Ohio and Indiana National Guard Divisions has had interesting results.

On Thursday evening, July 30th, the 37th Division Band of the Ohio National Guard will present a public concert for the enjoyment of the citizens of Grayling. This will be an open-air affair and will probably be held on the Court House lawn. The concert will begin at 7:00 P. M. There will be no charge of course and all townspeople, tourists, and people of nearby communities will be cordially invited to attend.

Again on Thursday, August 13th, another free concert will be given by the 38th Infantry Division Band of the Indiana National Guard. This will be a joint concert with the Puerto Rican National Guard Band joining the Indiana music makers. Time of day and place will be the same for both concerts.

Further reminders of these entertaining events will appear in the Avalanche between now and the concert dates, and announcements will be made over the Gaylord and Houghton Lake radio stations preceding each appearance.

Your Chamber of Commerce sincerely hopes that there will be an unusually large turnout for these two concerts. If the National Guard units are good enough to donate their time and talents to this entertainment, we should be able to show our appreciation of their efforts by turning out in force. Everyone, young and old, enjoys a good band concert, and these Ohio and Indiana Divisional Bands are among the best. See you there, neighbor.

School District Asks Two Mills

The electors of Grayling School District Crawford and Kalkaska Counties, are being asked to vote for two mills for school operation for 1964 only at the annual election to be held in the school gym on June 8th.

As there has been much speculation concerning the revaluation of property for tax purposes being done in the county by the Yoh Company, B. F. Fowler, Grayling Township Supervisor, was asked to clarify the date of use of the appraisal figures for tax purposes. He stated that the appraisal will not show up on the tax rolls until 1965.

Thus if the Grayling School District electors set fit to vote for the extra two mills for operation, for 1964 only, it would be spread upon your present valuation and not upon any reappraised valuation of your property which might be made by the Yoh Company.

Moose Lodge Launches Fire Safety Project

It was announced today by Chuck Stoddard, Governor of Grayling lodge No. 1162, Loyal Order of Moose, together with Louis E. Foster, Chairman of the Civic Affairs Committee that the lodge would cooperate with the fire department in launching an all-out fire window sticker safety project.

In an effort to eliminate needless loss of life in home fires, the local Moose lodge is providing luminous cent window stickers to the public without cost. These reflecting red stickers are to be placed on the window of any bedroom wherein there might be an invalid, convalescent, infirm or aged person, or very young children. The fire department is fully aware of the use of these reflective stickers. In the event of a fire call to any residential building, spotlights will be flashed upon all windows of the home, and when one of these stickers is noticed, that room be investigated to determine if evacuation is required.

quired.

The use of the 4 1/2 inch square red sticker will materially cut down searching time by firemen and rescue squads during an emergency, and will thereby help to expedite rescue operations, and practically eliminate fatalities due to smoke inhalation. Fire chief Frank May has announced the full cooperation of the fire department in this life-saving project.

The stickers will be distributed as the Fire Dept. makes their fire inspection of the homes, however if anyone is missed, and wishes one, may contact Frank May, or the Moose Lodge.

In connection with the house-to-house inspection in cooperation with the Moose Lodge, Chief May reported the reason for the delay up to now is that the inspection stickers had not arrived. They are now on hand, but the inspection will be postponed until after the Fourth of July because it cannot be adequately and properly done along with all the work in connection with the holiday activity planning and preparation.

Frederic Sailor Serving On USS Enterprise

Charles W. Lodge, aviation boat swain's mate third class, USN, son of Mr. and Mrs. George C. Lodge of Frederic, Mich., is serving aboard the nuclear powered attack aircraft carrier USS Enterprise operating with the Sixth Fleet in the Mediterranean.

Enterprise is a unit of the large Mediterranean combat ready naval force that is a constant reminder

to any potential aggressor of America's determination to keep the peace.

She is capable of launching both jet and propeller driven aircraft off her four acre flight deck, and operating independent of supply support for extended periods. While in the Mediterranean, her crewmembers are scheduled to visit ports in Turkey, Italy and France.

Attend The Church Of Your Choice

A MATTER OF DEGREE

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Doctor? Lawyer? Merchant? Already Bobbie's parents are planning for his future. They're saving to give him the best education obtainable, because they want him to be happy and successful... a son to be proud of. It would be splendid if a good education automatically led to happiness and success, but unfortunately it doesn't. Many well-educated men and women have failed utterly when it came to living a stable and worthwhile life, because they lacked the strength of character that would have sustained them. There is no better training ground for the building of character than the Christian Church. These children are encouraged to follow a way of life that will not fail them, and to respect themselves and their fellows. Give your child every chance to succeed. Make sure that his education includes a thorough knowledge of the time-tested Christian truths.

Memorial Day . . .

Memorial Day is squarely in the American tradition. More than that, it is a reflection of the American character.

We are a sentimental people. And that, most certainly, is nothing to be ashamed of. It is a source of kindness, of consideration for others, of the compassion that distinguishes us from the lower animals.

And Memorial Day represents a special and wholly admirable form of sentiment. When we place our flowers on graves, in sadness and in pride, there is an uplifting of spirit. We are expressing love. And we are paying tribute to the virtues and dearth of those who passed on before us. And, even if we do not visit a cemetery, we remember, and in that way the dead take on a form of new life.

One cannot conceive of a year in which there would be no Memorial Day. For it is the privilege of the living to honor those who are gone.

We mean the American FINAL/FILTER. A different kind of trap, sure, but with pretty much the same results—people beat a path to our door. IN MEMORIAM

In memory of our beloved mother, who passed away May 28th, 1963. Though she could neither speak nor hear, to us she was very dear. Her loving eyes and tender smile lit up our world—made life worthwhile. And though the light has grown dim we know she walks and talks with Him. In the garden by His side she waits for us, please God, to abide. So in that wondrous Land above we'll know again our mother's love.

Mustang leads the stampede the big Ford started. This has been the hottest sales year in Ford Division history. We have a winner in the Super Torque Ford, a car so well built, so predictably tough, that competition-modified Fords took eleven of the last twelve NASCAR 500-mile races. Ford sales are up 17% this year. We have a luxury car that's taken off like a skyrocket: Thunderbird, with sales up 68%. Falcon is selling almost as many cars as Valiant and Chevy II combined. Fairlane continues to be a favorite in its own field. Now comes Mustang... turning the trend to Ford into a downright stampede. Mustang, by any measure of sales or excitement, is the most successful new car ever introduced in America—ever. When you see a stampede, it makes sense to find out what started it. That's something only your Ford Dealer can tell you about.

MEET TO DISCUSS ANNEXATION

Forty interested people from
Grayling Public School District No.
3 and Beaver Creek School District
No. 1 responded to an invitation
sent them by the Grayling School
District No. 1 board and met with
them in the gym foyer on Monday
evening, May 18th.

The purpose of the meeting was
to again discuss annexation. Fol-
lowing are some of the school im-
provements and their costs in
terms of millage as pointed out to
the group by Supt. Joseph Stride
and board president, Dr. B. E.
Henig.

1. We are striving for only one
common goal and that is the best
possible education for our children.

2. A good education cannot be
determined by money alone but in
communities of our size we must
try to have large an enrollment
as possible in order that we will
have enough students so that we
can offer the courses the students
need.

3. Next year we will have a new
elementary school with 20 rooms.
We will not be able to fill all the
rooms right away but we have
hired 3 teachers more than we have
right now in the elementary grades
so that we will be able to divide
the 1st, 2nd and 3rd grades into 3
sections each. We believe a sound
education starts in the lower grades
and the best way to give every
child the best possible start is to
cut the teacher load.

4. When the grades move into
their own building the old building
will have adequate rooms so that
we can do the things we have
wanted to do for years and the
things that should be done to give
our children the education neces-
sary to compete with students from
other parts of the state and nation.

(a) All new furniture — the old
furniture has been in the building
since 1916. It's going to hurt to
part with it but come up and look
it over and if you find a desk with
your initials on we will sell it to
you for a dollar.

(b) We will be able to have
home rooms for the 7th and 8th
grades.

(c) The study hall floor will be
removed and a new non-squeak
floor will be installed. The old
stage will be taken out and the
room will be divided into a library
which we need badly and a small

study hall with 125 study top arm
chairs.

(d) A new Chemistry-Physics
laboratory with all new lab tables
and storage cases and separated
from this will be a new Biology-
General Science lab with two stu-
dents tables and storage cabinets.

(e) One room will be added to
the Shop with all new equipment
for arc welding, gas welding, elec-
tronics and light metal work.

(f) An Arts and Crafts room will
be equipped with all that is neces-
sary for a good Arts and Crafts de-
partment.

(g) A few years ago we were
able to put new kitchen cabinets
and stainless steel sinks in our
Homemaking department. Now we
will add the rest of the storage ca-
binets and tables and chairs so
that we will have a place for our
girls to work that is modern and
up to date in all respects.

(h) We are planning on moving
our Commerce department to lar-
ger rooms and increasing from 2
rooms to 3 rooms. Bookkeeping will
be in the old Kindergarten room.
Typing and Office Practice will be
in two of the vacated grade rooms.
The Typewriting room will be in-
creased from 23 typewriters to 29
and we will add 6 typewriters to
the Office Practice department for
advanced students. There will be
new furniture throughout. The stu-
dents will not have to sit on folding
chairs to type and if you would like
to see a sample desk for typing and
bookkeeping, stop in room 43 and
ask Mr. Gierke to show it to you.

(i) Teaching a modern Foreign
Language requires modern meth-
ods. A new language lab with 30
listen-respond earphones and mi-
crophones will be installed in our
language room.

(j) Locker space has been ex-
tremely limited in the past. 150
new double lockers have been pur-
chased which when added to the
106 lockers we have now will be
ample to take care of all our stu-
dents.

(k) One of the most important
phases of our remodeling program
is classroom lighting. Fluorescent
lights will be installed in all class-
rooms so that no student will have
to work in an area that does not
meet the requirements of the State
Health Department.

When we finish the proposed re-
modeling of our High School this
summer we will have a building
that is completely modern in every
respect so that with the new ele-
mentary building we will have a
school system that is second to
none in this northern area.

Your children need the best ed-
ucation you can afford to give
them. If your property is assessed
at \$2,000.00 and we levy 12 mills
for operation you will pay \$24.00

per year to operate a school and
pay the teachers.

If you join with us the total State
Equalized Valuation of the com-
bined school districts will be ap-
proximately \$7,031,000.00. For 1965
our principal and interest payment

for the new school will be \$37,706.26.

A debt retirement levy of 6 mills
will raise \$42,188.00.
6 mills on \$2900.00 valuation will
cost you \$12.00.

Consumers Tells Of Its River Lands Policy

Consumers Power Company has been practicing the conservation of natural resources for many years and in this connection has made its reservoirs and river lands available to those who enjoy the great outdoors. It fully intends to continue to make these lands available to the public for fishing, hunting, hiking, camping, winter sports and similar activities so long as this

activity is not inconsistent with the Company's primary function and use of the land which is to provide good, inexpensive, and dependable electric power to all the people in its service area.

It has long been the policy of the Company not to sell lands which are adjacent to the backwaters of its operating dams or which are, or will be, needed for adequate control of its operations. The single exception to this policy is at Croton Dam where Consumers Power Company did not purchase all of the abutting land but acquired title to land to be flooded or the right to flood to a certain elevation. Therefore, the Company has not sold and has no immediate plans for selling any of its lands on the AuSable, Manistee or lower Muskegon Rivers.

It will continue to lease access sites and park areas on these rivers to appropriate public agencies. At the present time, there are 61 such sites leased at nominal rental to agencies such as the Conservation Department, State Highway Department, Counties and Townships for parks, fishing sites, camping sites, boat landings and picnic areas.

The Company has, in recent years, sold certain of its river lands on some of the smaller rivers where there has been no foreseeable use for the land in connection with electric power generation.

Rifle River lands in Ogemaw and Arenac Counties have been sold in small parcels over the past two or three years. At the present time nearly all of the land on this river is either sold or under negotiation. A very few parcels remain available for the public to buy.

All of the Company's lands on the Muskegon River above Paris were sold in 1962. Persons holding leases on these lands were protected in that they were given the opportunity to buy their leaseholds from the purchaser at the price set by the Company's appraiser.

The Company's lands on the Betsie River in Benzie and Manistee Counties, including the Homestead Dam, were sold in late 1963. These were sold at auction to the purchaser submitting the highest of several bids.

The Pine River lands that have been declared surplus in Manistee, Wexford and Lake Counties, lie entirely within the Manistee National Forest. The Federal Forest Service has been very anxious to acquire these lands and the Company has made a conditional offer to the Forest Service covering all of these lands which are not currently under lease. The price included in the Company offer was established by independent appraisers as the present fair market value of the property involved in the proposed transaction. As before, individuals who are leasing cabin sites on these lands will be given the first opportunity to purchase their leaseholds.

If the Federal Forest Service does not elect to purchase these lands, then the State of Michigan will be given the opportunity to purchase all or part of them. In any case, before they are put up for sale to the general public, the State will be offered a reasonable number of access sites so that the public will have access to these waters.

Letters To The Editor

Editor's Note—The following letter was received by Grayling High art instructor Margo Smith who felt that the citizens of Grayling would be interested in it.

May 19, 1964
To the Art Teacher and Students of Grayling Public Schools:
Last Saturday my wife and I had the pleasure of visiting your town and saw the art display you had set up in a store window.

I am a sign painter, a far cry from the so-called "artist" but appreciate art and enjoyed your fine display very much. Every picture in your showing deserved much credit and especially the work done by the girls named "Beery" also the line drawings were excellent by the boy named Feldhauser.

The Pop Art by several students was very original, I thought, and of special merit. It certainly is refreshing to see so many young people take a real interest in drawing and painting and I am sure that many of those in your class have a great opportunity in this field today.

Congratulations to both students and teacher on a fine job done!
Sincerely yours,
Roy L. Dodge

Also think your merchants are doing a fine job of advertising your town. The lack of parking meters encourages shopping, our meal at the restaurant was enjoyable.

State Police Seek To Halt Water Deaths

The State Police are giving special emphasis to two safety slogans—"A Captain for Every Ship" and "A Lifeguard for Every Family"—as part of their contribution to Michigan's Water Safety Education Month during May, said Sgt. Donald BoBo, commander of the Houghton Lake post.

Though water safety is a year-around concern for the State Police, the special efforts are in conjunction with Gov. George Romney's proclamation for the month which marks the start of increased outdoor water activities.

Explaining the slogans, Sgt. BoBo said that State Police analysis of Michigan's 540 water accidents last year which killed 244 persons and injured 216 others indicated that more responsible supervision by boat operators, parents and other adults could have cut the toll appreciably in boating and nonboating accidents.

The study showed that some of the 88 lives lost in boating accidents could have been saved in at least 48 cases had there been life preservers for passengers. In nonboating tragedies, investigators believed that adequate supervision could have saved lives in 52 fatal accidents while in 45 other mishaps provision of a lifeguard on duty would have prevented some deaths.

Poem Proves of Timely Interest

Editor's Note—The following poem was presented to the Avalanche for publication by Mrs. Herbert Wolff. The Avalanche usually does not print poems but in that this one deals with a subject now being scrutinized by Congress, it felt that it was of sufficient timely interest to be reproduced. The poem was sent to Mrs. Wolff by her brother and was written by a former college friend of his.

NOW I SIT ME DOWN IN SCHOOL

Now I sit me down in school Where praying is against the rule For this great nation, under God Finds public mention of Him odd. Any prayer a class recites Now violates the Bill of Rights Any time my head I bow Becomes a Federal matter now. Teach us of stars or pole and Equator But make no mention of their Creator.

Tell of exports in Denmark and Sweden But not one word on what Eve did in Eden. The law is specific, the law is precise Praying out loud is no longer nice, Praying aloud in a public hall Upsets believers in nothing at all. In silence alone can we meditate, And if God should get the credit, great!

This rule, however, has a gimmick in it; You've got to be finished in less than a minute. So all I ask is a minute of quiet If I feel like praying, then maybe I'll try it.

If not, O Lord, this plea I make; Should I die in school, my soul you'll take.

Hospital Auxiliary News
Mercy Hospital Auxiliary met Thursday with twelve members and one guest present. Administrator Sister Janice was also present, and gave a talk on projects under consideration by the hospital. She demonstrated a new type hospital bed, Circo-Electric which had just been received. She also discussed the need for a blood bank in conjunction with the Red Cross.

At the business meeting Mrs. James Thompson presided in the absence of the president. It was voted by the Auxiliary to donate \$200 toward the cost of the new bed. A notice was read of the annual meeting of the Michigan Hospital Auxiliaries, to be held June 16 at Grand Hotel on Mackinac Island.

Mrs. Finer Reasmussen and Mrs. Wilfred Laurent were on the lunch committee.

Two Central Michigan legislators and two Chippewa Indians from the Isabella reservation carried the problems of Michigan Indians to Washington last week.

Shown above, left to right, are State Representative Russell Strange, of Clare, representing the Isabella district; State Representative Walter Nakkula, of Gladwin, representing the Arenac district; Chief Willis Jackson, head of the Chippewa tribe near Mt. Pleasant; Congressman Elford A. Cederberg of the 10th Congressional District; and Ben Quigno, who lives on the Isabella reservation near Mt. Pleasant. Representative Nakkula is chairman of the Legislature's interim committee to study Indian affairs, and Representative Strange is a member of the committee.

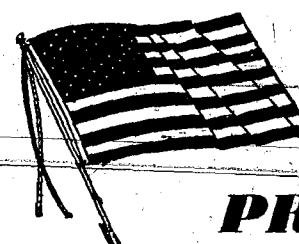

The delegation went to Washington to attend the American Indian Conference on Poverty sponsored by the Council on Indian Affairs and while there conferred with Congressman Cederberg on Indian matters in his district. Chief Jackson is shown presenting Congressman Cederberg with a piece of Michigan Indian handicraft.

Much work was accomplished this past weekend on the new band stand. The members who helped deserve a hearty thank-you for a job well done, and lots of hard work. Homer King was overseer, and has done a fine job. Our Building Fund is still growing and if as much is accomplished each weekend as there was this past week, we should be able to have it finished before too long, at least sooner than was expected.
